

Dictionography

For this chapter, list and then explain in paragraph form (see dictionary for form), the significance of 12 or more words or phrases that capture your life--for example:

**honest
diving
Wyoming
always late
saxophone**

Each word must be spelled correctly, show syllabication, part of speech, and definition. Then explain the word's importance to your life.

Example:

Hon-est: (Adj.) Reputable, respectable, good, worthy, free from fraud or deception.

I consider myself honest because I try my very best not to talk about other people behind their backs or lie to them.
